

1 lowering the voting age. They felt this would be an
2 advantage to the Democratic party since the high school
3 seniors polled registering Democratic.

4 I would like to make a remark that I think is
5 pertinent. I know a lieutenant colonel in the Army and he
6 and I had spent many evenings together.

7 I asked him how come the American soldier has
8 never lost a war and why do you think he is a great
9 soldier. He told me he is an undisciplined soldier, he
10 is arrogant and he gripes, but if you send that soldier
11 out on a mission and his leader falls or dies or is dis-
12 membered, that squad gets the job done. Someone else takes
13 his place. The young American responds favorably to
14 pressure. He reacts.

15 I say we have nothing to fear from him making
16 a poor choice in the battle. So let us give him the
17 opportunity to vote.
